

**Discover Scuba Diving** is a course designed to give a quick and easy introduction to diving to inexperienced participants. A person who wishes to find out what it's like to scuba dive in safe and convenient conditions, under the supervision of a professional instructor, and to go through an unforgettable experience, should take this course. The course provides an introduction to using scuba equipment and moving around underwater with the necessary gear. Non-divers will pre-study the basic safety rules, go over the scuba equipment and learn to swim underwater.

**Discover Scuba Diving** course can be run in the pool, confined open water environment or in open water conditions. Just like in case of all PADI courses and programs, safety of the participants is the priority during planning, organizing and implementing **Discover Scuba Diving** course.

**1. Requirements:**

participants 10 years old or older, showing positive attitude :)  
(younger children can participate in Bubblemaker or Seal Team programs)

**2. Duration:** 2 hours

**3. The course includes:**
